

Mullen ONE Class 1 EV Cargo Van

Van Storage Solutions by WEATHER GUARD

Since 1968 WEATHER GUARD® has formed a reputation for manufacturing the best van equipment available. Our innovations come directly from the field and provide an efficient organization that maximizes space for every industry. WEATHER GUARD doesn't just build shelves, we engineer tools of the trade that provide unmatched peace of mind.

With over 157 sq. ft. of cargo room and 1,683 lbs. of available payload, the Mullen ONE Class 1 EV cargo van welcomes upfit content. WEATHER GUARD shelf units help organize your business tools, supplies, and accessories with safe, secure compartmental solutions.

Adjustable Shelf Unit

Adjustable cargo van shelving units help maximize van storage customization and capacity. The Model 9353-3-03 adjustable shelf unit includes 3 shelves and measures 44 inches high by 36 inches wide by 13.5 inches deep with a 10.5-inch deep top shelf when assembled. The adjustable work van shelving is deeper to hold more tools and equipment and has captive nuts at each corner for easier assembly and quieter operation. Accessory mounting holes in the commercial van shelving eliminates the need for mounting brackets or drilling. The shelving for vans is manufactured of heavy gauge steel and fully hemmed for extra strength and durability. The adjustable van shelving includes two tapered end panels and a set of four adjustable dividers for each shelf.

Driver Side Mounting Kit

Organize van accessories with the Model 975106-3-01 Van Shelf Mounting Kit, which mounts one 28-inch and one 36-inch wide shelf along the driver's side of a Ford Transit Connect van. This unit, designed to install easily without the use of drills or self-tapping screws, features heavy-gauge steel construction and holds van shelving securely in place.

Passenger Side Mounting Kit

Organize van accessories with the Model 975107-3-01 Van Shelf Mounting Kit, which mounts one 28-inch and one 36-inch wide shelf along the passenger's side of a Ford Transit Connect 120in wheelbase van. This unit, designed to install easily without the use of drills or self-tapping screws, features heavy-gauge steel construction and holds van shelving securely in place.

STRENGTH & QUALITY

- Engineered to last
- Manufactured to fit perfectly
- Built to outlive the van

EFFICIENT ORGANIZATION

- Field-driven innovations
- Superior designs for specific trades
- Smart, customizable solutions

TRUSTED REPUTATION

- Long standing reliability
- Experts in space optimization
- Gold standard in manufacturing since 1968
