## Mullen PowerUP - Mobile EV Fast Charging Truck

## MULLENUSA.COM

chargers **4 X 7 2 kW level 2** 

**Class 5 Bi-Fuel** (Gasoline – LP/RLP) Cabover Chassis

Featuring 120kW Onboard Generator Duel-Fuel (propane/natural gas) Vehicle

Introducing PowerUP, Mullen's latest innovation in mobile EV charging and the very first of its kind. This advanced truck is designed to provide both level 2 and level 3 DC fast charging solutions in situations with limited access to power. Whether it's roadside assistance or emergency response, PowerUP ensures immediate recharging of electric vehicles and serves as a reliable backup power source. Based on a Class 5 truck platform, the PowerUP EV charging truck is capable of providing over 120 kW of power generation.

\*Specifications listed are targeted numbers and may vary based on various factors such as driving conditions, battery age, and other variables. Actual performance may differ from the numbers provided.
