110 miles

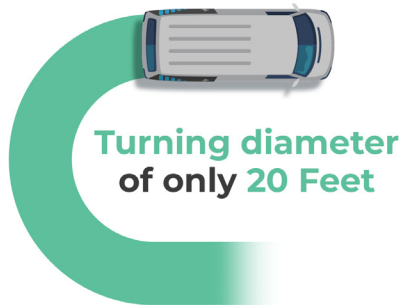

WHEELBASE
120 inches

L*W*H
186*64*75

BATTERY
42 kWh

* Preproduction model shown

Based on current specifications and subject to change.

The all-electric Mullen One is anticipated to be the first Class 1 commercial electric vehicle in the U.S. market.

The Mullen One was created to provide better fit within narrow urban streets and residential roads without sacrificing payload or cargo space.

The Mullen One's height is less than 6 ½ feet, meaning your driver can park the vehicle in a typical residential garage with a standard height of 7 feet.
